

AFOS MASTER SPECIFICATION v1.0

#Table of Contents

1. Vision & Philosophy
2. AFOS Manifesto
3. Product Requirements
4. AI Operating System
5. Workflow Engine
6. Database Design
7. UI / UX
8. Film Production Pipeline
9. AI Departments
10. Future Roadmap

#Vision

AFOS is an Autonomous Filmmaking Operating System designed to manage complete film production from idea to export.

#Core Principles

- Story before prompts
- Continuity before spectacle
- Professional production workflow
- AI departments collaborate
- Mobile-first
- Production-ready outputs

#AI Departments

Production Manager, Story AI, Director AI, Character AI, Environment AI, Camera AI, Storyboard AI, Image AI, Animation AI, Editing AI, Sound AI, Quality Control AI.

This document is the beginning of a much larger specification that can be expanded into a complete engineering blueprint.
